

#RAINBOWTRAIL

They say you can't have a rainbow without the rain. It is for that reason a heartwarming new trend for window rainbows is taking the world by storm.

The simple act of painting a window rainbow is helping to spread some much needed joy for those who are confined inside and a rainbow hunt for limited to short walks, with children around where they live for exercise.

Let's join in and start our very own rainbow trail in Little Hulton.

Creative Time:

- Rainbow window displays – ideas below;

Activity Time:

Rainbow experiments/activities:

- Make a rainbow powerpoint: Twinkl
- All the colours of the rainbow (spinners): Twinkl
- Building Bricks STEM activity (sheet)
- Walking rainbow experiment: <https://funlearningforkids.com/rainbow-walking-water-science-experiment-kids/>
